BULLETIN.
VERA CRUZ, Aug. 28.—The fact is now confirmed that General Huerta has notified Mr. Lind that his government is willing to renew the conference and that he is disposed to accept President Wilson's terms in order to secure peace and future recognition of the Mexican government. Conservative Mexicans here express themselves as hoping that General Huerta will abide by this determination as they are anxious for the pacification of the country.

BULLETIN.
VERA CRUZ, Aug. 28.—President Wilson's representative, Lind, will remain in Vera Cruz for several days. This announcement was made late tonight. Only unexpected happenings or a special request from the Mexican government will cause him to return to Mexico City. So far Senor Gamboa, minister of foreign affairs, has not asked Mr. Lind to return to the capital. It is further announced that Mr. Lind will make Vera Cruz his headquarters because he has suffered from ill-health in Mexico City.

William Bayard Hale sailed this afternoon for Havana. He carries with him the originals of the Mexican government's communications.

WASHINGTON, D. C., Aug. 28.—President Wilson received a long message from John Lind at Vera Cruz late tonight outlining the prospects of a settlement of the Mexican problem in most optimistic terms. While absolute silence was obtained at the white house, there was a well defined impression in official circles of the Huerta government that Mr. Lind had reached a preliminary agreement which might lead to peace in the southern republic.

It was stated on high authority that the situation was more encouraging than it has been at any time since Mr. Lind went to Mexico. The message to the president was essentially a summary of the points made by the Huerta government in its last note which was carried by Vera Cruz today by Col. Manuel M. Guasque. While no details were made public it is understood that both the United States and the Huerta government feel that they can resume negotiations on a friendly basis.

WASHINGTON, Aug. 28.—Strong hope prevailed in official circles tonight that the Huerta government and the United States soon would arrive at a mutual understanding leading to a peaceful settlement of the revolutionary disturbances in Mexico. Administration officials expressed themselves as pleased with the day's developments. President Wilson regarded as hopeful the tone of the note sent by Federico Gamboa, Mexican minister of foreign affairs, in reply to supplementary suggestions made by John Lind before leaving Mexico City for Vera Cruz last Monday. The full text of the two communications were received here and while neither side, according to the official interpretation, yields any of the essential points in its contentions the method of approaching the difficulties at hand is admittedly more friendly and framed with more regard for a practical solution. Officials round encouragement too. In Mr. Lind's decision to return to the Mexican capital as they had left it to his discretion to go there if there was a prospect of renewing negotiations along tangible lines. The two notes exchanged by Lind and Gamboa were published in full here today and official Washington read them closely.

S. Bankers May Help.
Much interest was manifested in the suggestion made by Lind that all proposals be laid aside for the present, except that which asks Huerta not to be a candidate in the coming elections. It was learned that while President Wilson knew the gist of Mr. Lind's second proposals, he was not acquainted until today with the text of the communication in which Mr. Lind promised that, if his suggestions were accepted, assurances would be given American banks of the moral support of the American government for a loan to rehabilitate the finances of the present Mexican regime. The white house view of the offer of the loan was that should the present effort to bring about peace appear to be bearing fruit it would be incumbent upon the United States to help Mexico straighten out her financial tangles.

The argument of Senor Gamboa that Huerta as provisional president of Mexico was prohibited by the Mexican constitution from succeeding himself and that the American contention therefore was unnecessary was scrutinized closely and some officials pointed out that no guarantee existed that Huerta would not resign at some time prior to the election and thereby make himself eligible. It was suggested, too, that to

accept the citation of the Mexican constitution as sufficient restriction of Huerta's candidacy might be construed as a recognition of Huerta as the constitutionally chosen ruler of the southern republic. Notwithstanding this view, however, hope was found in the vigorous disclaimer of Senor Gamboa that any one should have suspected Huerta of desiring to become a candidate for this was regarded as a tacit implication that Huerta finally would not enter the presidential race. The chief difficulties of the present situation, it is recognized by administration officials, are the questions of pride and national honor involved. Protests by Senor Gamboa that to yield to the contentions of the United States would be a surrender of sovereignty and would permit a foreign government to veto the candidacy of individuals in Mexican elections hereafter, have been met by the statement of officials here that the United States has not the slightest desire to interfere with the sovereign rights of Mexico.

Mexican People Sensitive.
There was confidence in official circles that by the exchange of other communications both Mexico and the United States would further clarify their positions on this point, imputations or dictation would be moved and any changes brought about in Mexico as a result would result from the voluntary acts of the Mexican administration. So far as the Washington government is concerned, it has been made plain that it hopes merely that a peaceful settlement of the difficulties may be reached regardless of how the Mexican authorities are influenced to compose the situation. Evidence of this was given today through frequent cautions by administration officials to the press to avoid injuring the sensibilities of the Mexican people by references to "concessions," "triumphs," or "defeats" in this connection, pointed reference was made to the remark of Senor Gamboa in his latest note: "We are really in the way of arriving at an arrangement equally dignified for both sides."

The situation as a whole was stripped of much of the tension which had been the national capital in its grip during the last few days. Secretary Bryan felt able to leave Washington late today for a lecture at New Hope, Pa., though he will return early tomorrow. President Wilson had hoped to go to Cornish, N. H., today for his week-end and unless the situation grows acute, will leave late tomorrow.

The machinery of the Washington government continued to operate in enforcement of the policy outlined by the president in his address to congress yesterday. Customs agents and military authorities along the southern frontier were ordered to hold up all shipments of arms or ammunition destined for any point in Mexico. Major General Wood, chief of staff, U. S. A., who returned to Washington today, did not go to the war department but remained at the bedside of his sick wife. He kept in touch, however, with the situation on the border where it is expected more troops will be used to enforce neutrality. Sec. Daniels of the navy department announced that no more additional battleships would be ordered to Mexican waters.

Americans Heed Warning.
Americans in Mexico are heeding President Wilson's warning to get out of the state department believe that two weeks hence there hardly a thousand of them left in the troubled southern republic. Although many had refused to consider leaving before the word came of the president's urgent advice, hundreds have been starting for home or abroad daily during the past three weeks and it is estimated that nearly 10,000 or about as many as are still in Mexico have gotten away. Of those now preparing to leave, 4,000 will need help from the government so that the \$100,000 appropriation asked by Secretary Bryan some time ago to aid refugees will be needed immediately. Of the 4,000 about 3,000 will come out by the east coast ports and the northern border, the other 1,000 through the west coast ports.

Department officials estimate that there were about 60,000 Americans in Mexico two or three years ago and Ambassador Wilson placed the number as high as 75,000. In addition American refugees the American red cross has spent about \$23,000 and last year the trips which the army transport Buford made down the west coast to Mazatlan, Manzanillo, Tepic and other ports cost the war department about \$36,000.

Officer Arrested.
El Paso, Texas, Aug. 28.—Manuel Beuche Alcade a Mexican constitutionalist officer arrested here today on a charge of aiding Didier Masson the French aviator to smuggle his aeroplane from Los Angeles to the rebels in Sonora last May.

Americans Seek Information.
Mexico City, Aug. 28.—Americans resident in the capital are at a loss as how to interpret the preliminary warning issued by President Wilson to leave the republic. Some what reassured by the declaration that armed intervention is not intended, they are now wondering whether there is a hidden meaning back of the latest warning.

The American Consul-general was crowded all day with Americans seeking information. Most of the Americans are planning to register their property and obtain Washington injunction. A few are availing themselves of the fund appropriated for Americans in Mexico.

Those who remain have for the most part have interests to leave behind which mean the sacrifice of their only means of livelihood.

LAWMAKERS COMPLETE FORMAL RECOGNITION

N. Y. LEGISLATURE FORMALLY RECOGNIZES GLYNN AS ACTING GOVERNOR

Senate Accepts Three Messages Sent In By the Lieutenant Governor—Legislature Adjourns Today Before Impeachment Court Convenes.

ALBANY, N. Y., Aug. 28.—Formal recognition of Lieut. Governor Martin H. Glynn as acting governor, pending the issue of the impeachment proceedings against Governor Sulzer, was completed by the legislature today when the senate accepted three messages sent in by Mr. Glynn last night. The legislature later adjourned to September 17th, the day the impeachment court convenes.

The day's proceedings in both houses were characterized by sharp denunciation of Governor Sulzer's close friend Judge Lynn L. Arnold who is seeking to procure indictments for felony against Senator Robert F. Wagner majority leader James J. Frawley chairman of the committee which laid the foundations for the impeachment and Speaker Alfred E. Smith and Majority Leader Aaron J. Levy of the assembly.

Levy was charged by Judge Arnold through Arnold's newspaper with receiving a \$5,000 bribe from former State Engineer Skene for influencing legislation. Senator Frawley was charged with bribery and other offenses while Senator Wagner and Speaker Smith were accused of perjury in falsely certifying to a quorum. The men impugned declared their intention of seeking redress through civil and criminal actions.

HOUSE CAUCUS APPROVES BILL

Administration Currency Bill Is
Approved by Democratic Caucus
by Vote of 163 to 9

TO BE REINTRODUCED IN HOUSE

Measure Will Be Reintroduced in the House
Today and Immediately Referred to
Banking and Currency Committee

HOUSE MAY PASS IT WITHIN TEN DAYS

WASHINGTON, Aug. 28.—The administration currency bill, after nearly three weeks of discussion, was approved by the house Democratic caucus tonight by a vote of 163 to 9. The nine dissenters were Representatives Henry, Eagle and Callaway of Texas; Hardwick of Georgia; Lobeck of Nebraska; Buchanan and Fowler of Illinois; Keely of Kansas and Sisson of Mississippi. After agreeing to the bill the caucus adopted a resolution by an almost unanimous vote, declaring the bill to be a party measure and that the members of this caucus are pledged for the bill to its final passage, without amendment, provided, however, the banking and currency committee may offer amendment in the house.

The feature of today's session was the adoption of a committee amendment as a substitute for the section on bank reserves which in effect simply served to clarify the section as originally drawn.

Reintroduced in House.
The measure will be reintroduced in the house tomorrow by Chairman Glass, referred immediately to the banking and currency committee, which will meet next Tuesday. It is expected the bill at once will be reported back to the house, which Mr. Glass predicts tonight would pass it within ten days, many Republicans having indicated their purpose to support it.

The measure as it stands after adoption by the caucus, is summed up by Chairman Glass as follows: "There has not been written into the bill from one end to the other a single sentence except by the initiative of the banking and currency committee itself, which has altered in the remotest degree the essential provisions of the bill as originally reported by the committee to the caucus."

Twelve Reserve Banks.
The bill establishes twelve regional reserve banks with a capital not less than \$5,000,000 each to which national banks are required to contribute an amount equal to 10 per cent of their own capital stock and to become liable for an additional 10 per cent, in case of call. This, it is estimated, will give the regional reserve banks a combined paid up capital of \$175,000,000. These regional reserve banks also are made custodians of a large part of the reserve money to member banks, estimated at about \$140,000,000 in the aggregate. They also receive the government deposits, estimated at from \$150,000,000 to \$295,000,000.

"Over the whole system of regional reserve banks is to be a federal reserve board, consisting of seven members. This board is given extensive powers of supervision, examination and control."

"The measure provides an advisory council of bankers without actual power composed of one member from each of the twelve regional reserve districts."

"One important provision is for the gradual refunding, for a period of twenty years, of the United States 2 per cent bonds into 3 per cent government bonds without the circulation privilege. This will mean the eventual retirement of national bank notes. The circulation privilege will thus revert to the government itself issuing through the regional reserve banks on a gold reserve of 33 1/3 per cent to be provided by the banks."

"The notable reserve features of the bill contemplate a reduction of the reserve requirements of reserve and central reserve cities from 35 to 28 per cent and of all country banks from 15 to 12 per cent. The federal reserve board is required to establish a graduated tax on the amounts by which banks may be permitted to fall below reserve."

"National banks are compelled to become members of the system under penalty of forfeiture of charters, while state banks are permitted to become members under regulations of the federal reserve board."

"Concerning the provisions relating to rediscounts over which there was such a prolonged fight, and as a substitute for which Representative Henry and others offered amendments comprising 18 printed pages, the only change made was to add two and one-quarter typewritten lines, declaring that nothing contained in the bill should be construed to prohibit the rediscounting of notes and bills of exchange secured by agricultural products and other goods, wares and merchandise."

TWO WOMEN ATTACK PRIME MINISTER

SUFFRAGETTES POUNCE UPON
ASQUITH AT GOLF LINKS

Daughter Uses Militant Methods In
Assisting Her Father Whose Chivalry
Restrains Him From Adequately
Defending Himself—Detectives Arrest Women.

ELGIN, Scotland, Aug. 28.—The British prime minister was the object of an attack this afternoon in which his chivalry restrained him from adequately defending himself. While he was golfing with his daughter on the Levenmouth links two suffragettes, who had come up the green sprang at him suddenly. They knocked off his hat, grabbed him by the clothing and dragged him some distance over the ground.

The prime minister refrained from using force to make them desist while they appeared to him their action that he was a second and past master in the arts of Ananias. Miss Asquith who was a little distance off when the suffragettes pounced on her father ran to his assistance and proceeded to apply militant methods to the militants. The battle waged for only a few moments when two detectives rushed up and with difficulty released Mr. Asquith from the clutches of the suffragettes. The detectives took the women to the Elgin police station.

PORTER CHARLTON ARRIVES IN NAPLES FOR HIS TRIAL

Will Be Lodged in Prison Until September 2 When He Will Be Taken to Milan or Coma.

NAPLES, Aug. 28.—Porter Charlton, the American who must stand trial before the Italian courts for the murder of his wife, Mary Scott Castle Charlton, at Lake Coma three years ago, arrived at Naples today from the United States aboard the steamship Re d'Italia. He will be taken to Genoa on the steamer arriving there Saturday and will be confined in the Genoa prison until September 2, when he will be transferred to Milan or Coma.

The Associated Press correspondent was allowed to see Charlton, who was sitting in his shirt-sleeves, about to have supper with the carabinieri. Charlton promptly exclaimed that he was tired of seeing newspaper men. At this moment bugles from the transport Ri de Amazzoni, with a regiment of Bersaglieri aboard, sounded, and Charlton, waving his cap, shouted "viva Italia."

When he read the details of his crime in American papers he burst into tears.

allow an exemption of \$500 for each minor child instead of limiting the exemption to two children was defeated 34 to 27. Another by Senator Lodge to substitute "dependent" for "minor" children also was promptly voted down. Senator Cummins attacked the provision defining "income" declaring that the definition of the word as used in the constitutional amendments was for the courts to pass upon and the attempt of congress to do so might result in the entire income tax being declared invalid. He objected to what he termed efforts of the committee to have principal reckoned as "income" and to have undivided profits of corporations regarded as part of the income of individual shareholders.

Just as the senate adjourned, Senator Hitchcock proposed his amendment to impose an additional graduated tax on corporations making more than one-fourth of the total production of any line of goods.

During the afternoon, Senator Lodge had warned against levying the income tax as a class measure. He suggested every person should be made to pay a part of the tax, no matter how small his income.

HEARS STORY OF HER HUSBAND'S INFIDELITY

MRS. MAURY DIGGS LISTENS TO
MARSHA WARRINGTON'S TESTIMONY

Marsha Tells Same Story That Convicted Diggs in Trial of F. Drew Caminetti—Mrs. Diggs Winsces at Passages of the Girl's Testimony.

SAN FRANCISCO, Aug. 28.—For the first time since the story of her husband's infidelity became public property, Mrs. Maury I. Diggs heard it today from the lips of Marsha Warrington, "the other woman." Marsha told the same story that branded Diggs a white slave. In the case of F. Drew Caminetti on trial for alleged violation of the Mann white slave act, as in that of Diggs, she remains the chief witness for the government, although the name of Lola Norris is the one coupled with that Caminetti in the indictment.

Mrs. Diggs winces at passages of the testimony.

"How often did you meet him?" asked Theodore Roche conducting the direct examination.

"About every other night," answered Marsha Warrington.

Mrs. Diggs winces. Diggs, himself was at the rear of the court room, among the spectators, many of whom were women.

When the testimony and the exhibits became unavoidably salacious Judge Van Fleet gave warning that no woman could remain and hear what was about to be spoken except at the expense of her delicacy. Not one stirred.

Concluding her testimony for the day Marsha Warrington walked to a seat at the table of counsel for the government. Facing her as she drew near, stood Mrs. Diggs at the table of counsel for the defense staring her steadfastly in the face. The girl turned her head and looked away.

Mid-way between the two tables stood Diggs, who looked nonchalantly first at one woman and then the other.

The girl's story today was a somewhat curtailed repetition of her previous testimony. Other witnesses covered familiar ground—the brief stay at the Reno hotel, the renting of a bungalow, the purchase of supplies and the arrest.

TRIP TO ATTORNEY GENERAL IS IN VAIN

Thaw's Lawyers Rejoice When
They Hear Jerome Is Unsuccessful
in Seeing Sir Lomer Gouin

HOPED TO PERSUADE PREMIER

New York Attorney Hoped to Lay Facts
Before Premier That Would Persuade Him
to Give Thaw to Immigration Authorities

FOR PRESENT THAW WILL STAY IN JAIL

SHERBROOKE, Que., Aug. 28.—Harry K. Thaw's lawyers, successful so far in keeping their client in jail, safe from the immigration authorities, rejoiced tonight when they received word from Quebec that the trip of William Travers Jerome to see Sir Lomer Gouin, provincial premier and attorney general, had been in vain.

Mr. Jerome, leader of the New York state forces seeking Thaw's return to Matteawan, accompanied by Deputy Attorney General Franklin Kennedy, hope to lay before the premier facts that would persuade him to place Thaw in the hands of the immigration authorities. Presumably Mr. Jerome did not know that the premier was to leave Quebec for New York to join those paying tribute to Lord Haldane, who is to arrive there from England tomorrow.

Similarly, this fact was not known to Louis St. Laurent, engaged by the Thaws to defend "Gentleman Roger" Thompson, the chauffeur. Although concerning himself chiefly with the Thompson case, Mr. St. Laurent, a resident of Quebec, a Liberal, and supporter of the premier and he was despatched thither, it was understood, to use whatever influence he could bring to bear against the premier taking any action in the Thaw case at this time. He will return here tomorrow to defend Thompson when the latter is arraigned before District Magistrate Mulvena on a charge of aiding an undesirable to cross the frontier. If Thompson can prove he is a British subject he cannot be deported, but he can be fined a maximum sum of \$500 or imprisoned for three months.

Will Not "Squel" Details.
Thompson said tonight that he would plead not guilty and absolutely would not "squel" as to the details of Thaw's delivery from Matteawan.

It doubtless will be necessary for the prosecution to prove Thaw insane before it can establish that he is an undesirable alien and thus subject to the charge against Thompson. If this is the case, the Thompson trial may go over until aliens act examine Stanford White's slayer. There was renewed talk today of the possibility of Thaw's being admitted to bail pending the long wait for trial before the king's bench in October, the length of time it now appears he will be held. One of Thaw's counsel said tonight that his admission to bail he would regard as an unwelcome move.

"In my opinion," he added, "the immigration authorities could then take him in charge and although they could not deport him in view of his being bound by a bond to appear in court they might be able to embarrass us. For the present Thaw will remain in jail, perhaps later we will hit on a way to get him out in safety."

More of Thaw's Canadian counsel called on him today. On the whole it was for him the most uneventful day of his incarceration here.

ALEXANDER METHODISTS HOLD SUCCESSFUL PICNIC THURSDAY

Realize Large Sum Which Will be Used Toward New Church Building.

The annual burgoon and picnic of the Alexander Methodist Episcopal church was held in the park at Alexander Thursday with a large attendance and the church people realized quite a neat sum which will be used toward their new church building. Since the church was destroyed in the recent fire the members have been working on a fund for a new building and previous to the picnic Thursday more than \$8,000 had been raised. The members intend to erect a \$10,000 brick structure, thoroughly modern, and bids for the work have already been advertised for.

At 11:30 o'clock Thursday morning Rev. E. B. Houck of this city gave an address to the large gathering in the park and at noon burgoon soup and numerous other good things to eat were served. After dinner one of the attractions was a baseball game between Alexander and Franklin, the contest being won by the Alexander team by a score of 22 to 17. Rev. Peter Kittel of Franklin gave a reading and Rev. E. B. Houck of this city gave another reading that had been written by himself. William Reipschlag of this city gave a number of recitations, among them "Paul Revere's Ride." During the afternoon a number of contests were held. There were only a few entries in the colt show. Charles Strawn offered season to his stallion, Paroloy, to his best get and this prize was won by Danan Robinson. In the evening an elaborate chicken supper was served to about five hundred people. The entire picnic was a decided success and altogether about \$600 was taken in. The general committee was composed of W. E. Keenan, John Snyder and Luther Wiley, who also had charge of the ice cream.

NEGRO SHOT BY

SECTION FOREMAN

JOHN LAMBERT KILLS MAN WITH SHOT GUN.

Looters at Work in Box Cars in Which Alton Section Men Lived Near Yeoman Outgrowth of Shooting—Sheriff Rogers and Deputies Put Five Men Under Arrest—Inquest Today.

As the result of a shooting affray at Yeoman station on the Murrayville cut off, Thursday morning at 11:20 o'clock, John Lambert, a section foreman, and four other men are lodged in the county jail. A colored man by the name of Smith was shot by Lambert and died on the train while being taken to a hospital in Springfield. The accomplices of Smith captured were James Ghosten of Arkansas and George Williams of Kansas City, both colored, and Edward Engle of Rochester, N. Y., and Herman Diesen, white, of St. Louis. The men were pilfering the cars in which Lambert and his help resided when the shooting occurred.

For sometime, according to Mr. Lambert's story, gangs of men had been passing through that part of the country, making a practice of breaking into the cars at the Yeoman station, consisting of three, in which the section men lived, helping themselves to clothing and eatables and searching for money. Thursday morning the section men were working some half mile from the station when they noticed a party of men got off a freight train. Lambert went immediately to the place armed with a double barrel shotgun. At the time Smith was eating a peach; Lambert shot, and the full effects of the load lodged in the man's neck and shoulder on right side. Lambert also continued his attack, according to his own story and hit Diesen in the back with his gun. Ghosten claims that he was helping shovel some coal in the engine when Lambert arrived and he was only spared the anger of Lambert because of the interference of a brakeman.

Sheriff Rogers' Notified.

Sheriff Rogers was not notified of the shooting until 1 o'clock. He got Estaque to take him and his deputies, B. C. Andrews and W. F. Todd to Yeoman. After Lambert was put under arrest search was started for the other men. Through advice of William Whalen of Franklin it was learned that the men were in the neighborhood of Clements station, near which place the arrests were made. The only man armed was James Ghosten, who carried a 38-calibre revolver. Todd brought the four prisoners to Jacksonville on the Burlington passenger and Lambert was brought by Sheriff Rogers and Deputy Andrews via automobile.

Lambert had sent word to the sheriff that he would be waiting ready to give himself up, which was the case when the officers arrived. He seemed calm and undisturbed and appeared to impress the officers as though he thought he had done the proper thing. He stated how that their house had been looted on several occasions and that there seemed no laws in that community to render him protection. The pilferers had done good work yesterday, as all the men's trunks and suit cases had been opened, and the contents scattered about; the beds were turned over and everything gave evidence that the men had been searching for money.

Lambert Native of Italy. Lambert is a native of Italy and has been in this country some eight or ten years. He is 31 years of age and has been foreman of the Alton section gang for a year and a half. He speaks the English language well and bears a good reputation in that community and it is understood that he is well thought of by the railroad company. When hearing the jail last evening he begged Sheriff Rogers not to lock him up, that he would not leave the country. He said it was his first automobile ride, while being brought to the city.

Little Known of Smith. Nothing is known of Smith, and he was almost a stranger to the other men, the party having not been long together. He was a mulatto and wore a hat which was recognized by the others. The hat is in the possession of the sheriff. Another negro, who was an accomplice in the matter escaped the officers. He is said to have a part of one hand cut off, through an accident of a short time ago. Herman Diesen is the only man who was an eye witness to the shooting.

Lambert was arrested on a state warrant for murder and Coroner Clarence Rhodes of Springfield telephoned Sheriff Rogers last night to hold Lambert and that he would be over this morning to get some facts for the inquest which will probably be held this afternoon or evening at Springfield, when members of the train crew can also be present. The charges against Williams, Diesen and Engle is trespass and that of Ghosten, trespass and carrying concealed weapons.

A YANKEE CIRCUS IN CANADA.

Does an Enormous Business and Pleases the People.

There was no antagonism to the Yankee Robinson circus title while in Canada, for our neighbors are a class of people who admire a man on his merits. The big Robinson 3-ring show coming here Monday had a most satisfactory and enjoyable trip up in the far northwest. The newspapers, as one voice, said it was the best tested exhibition ever seen in the Dominion.

It is positively asserted that never in the history of tented institutions has any attraction of this nature received more generous and universal praise from the both the public and the newspapers than has this same old Robinson circus. The Calgary, Regina, Edmonton, Medicine Hat, Saskatoon, Moose Jaw, and Prince Albert daily papers were all in favor of this old show, praising the management for the cleanest, most skillful, and entertaining program ever seen in those cities.

A home run by Smith was one of the features of the game. Franz played a consistent game on second.

KENTUCKY DRILLS

The Kentucky force feed is a force feed in the strictest sense of the term, and it sows all seeds from flax to treated wheat, with unvarying accuracy. The range of quantities is very great and the operator is not obliged to sow a peck or a bushel every time a variation in quantity is desired. In fact, the Kentucky fluted force feed will enable the user to regulate the quantity to sow as low a fraction as a quart or pint. One slight movement of each indicator lever sets every feed on the drill. Call and take a look at them.

Story's Exchange & Employment Agency

When land values change, they invariably go higher. The 23,000,000 of people in the United States face a different condition. The go around; the 23,000,000 of today face a different condition. The unborn millions are to be fed from the same area of land. The man who failed to buy ten years ago is sorry now. If he waits ten years more he is in far worse condition. While the renter has paid his landlord \$6,000 for the use of 120 acres of land during the last ten years, the land has increased in value \$6,000 more, making the owner \$12,000, and he has the land left, and the renter has his teams and implements left.

FOR SALE—A neat little farm of 67½ acres, nearly all level farming land, well tiled, with a nice little cottage, with basement, nearly new, new outdoor concrete cellar, large chicken house, new barn for five horses, with implement shed adjoining, corn crib and granary. This farm is within one mile of the corporation of one of Morgan county's best little towns on the C. & A. road. Part cash, balance left on farm, or will take Jacksonville property in exchange.

No matter what you want to sell or buy, borrow or loan, we are at your service.

Thousands Have Been Helped
By Common Sense
Suggestions.

Women suffering from any form of female ill are invited to communicate promptly with the woman's private correspondence department of the Lydia E. Pinkham Medicine Co., Lynn, Mass. Your letter will be opened, read and answered by a woman and held in strict confidence. A woman can freely talk of her private illness to a woman; thus has been established a confidential correspondence which has extended over many years and which has never been broken. Never have they published a testimonial or used a letter without the written consent of the writer, and never has the Company allowed these confidential letters to get out of their possession, as the hundreds of thousands of them in their files will attest.

Out of the vast volume of experience which they have to draw from, it is more than possible that they possess the very knowledge needed in your case. Nothing is asked in return except your good will, and their advice has helped thousands. Surely any woman, rich or poor, should be glad to take advantage of this generous offer of assistance. Address Lydia E. Pinkham Medicine Co., (confidential) Lynn, Mass.

Every woman ought to have Lydia E. Pinkham's 80-page Text Book. It is not a book for general distribution, as it is too expensive. It is free and only obtainable by mail. Write for it today.

8:00—Women's suffrage address. Mrs. Caroline Trout, president of the Illinois Woman's Suffrage association.

The attendance at the chautauqua yesterday was an improvement over that of the day before and as usual the bill offered was excellent. The boys and girls held the boards at first and then Miss Hemmaway gave her lecture in physical culture, "Exercise for the Stomach and Liver."

Surely this talented young lady has well studied her subject and is eminently qualified to speak on it. Her knowledge of the human frame is thorough and she knows how to apply it. Later in the afternoon she gathered a bevy of children together out on the lawn and gave them games and exercises that were very interesting.

Again the Jeffries concert band charmed the people and added new luster to its already brilliant record. We have in our midst a musical organization of which we may well be proud and it is gaining in credit daily.

The Woodland Players.

This talented organization was promptly on hand and the stage was especially prepared for them. It was artistically dressed, with green boughs and everything that could be done was undertaken to make it all it should be.

The company is an outgrowth of the work of Mrs. Catharine Norris Snyder of Indianapolis. She first had an organization or class for the study of Shakespearean plays and they became so deeply interested that they undertook the presentation of some of them and with great success. Mrs. Snyder herself is a teacher and has a school of dramatic expression and elocution in Indianapolis and during the winter has a flourishing enterprise, while her husband teaches music. About

five years ago the company was regularly organized for theatrical representations and since that time has done much in chautauquas during the season. The repertoire consists of

Midsummer Night's Dream, As You Like It.

Taming of the Shrew.

Together with some modern plays.

The mascot of the company is Mrs. Snyder's eight months old baby who accompanies them and is the sweet pet of the whole organization, as she cannot be induced to leave the dear little one at home. The child is used in the presentation of The Midsummer Night's Dream and never fails to bring down the house.

The company has been playing in the middle west for some time and this year has appeared in North Dakota, Minnesota, Wisconsin, Nebraska, Missouri, Illinois, Indiana and Ohio.

The last stand was at Mt. Vernon, Ind., and the next one will be in Merom, Ind. The company makes some big jumps but travels largely at night so as to miss no dates and make as many stands a week as possible.

At the last place Mrs. Snyder left her purse containing a hundred dollars in money, a gold watch, a silver money bag and some valuable papers and she declares she is going to have garments with pockets in them here after. At New Albany, Ind. they played to 9,000 people which was the largest audience.

In the evening they presented "Midsummer Night's Dream" to a delighted audience. The following was the cast:

Theseus, Duke of Athens—J. Ross Nugent.

Lysander, in love with Hermia—Harry K. Bubb.

Hermia—Frances Beik.

Aegeus, father of Hermia—George Leslie.

Philstrate—R. Lynn.

Nick Bottom, the weaver—Archie Tracy.

Junice, the carpenter—Thomas F. Snyder.

Snug, the joiner—Mr. Farnsworth.

Starveling, the tailor—Gaylord Snyder.

Flute, the bellows mender—Roland Schaefer.

Overon, King of Fairies—J. Van Sant.

Titania, his Queen—N. Norris.

Puck—Genevieve O'Hara.

Hypolita, Queen of Amazons—Catharine Snyder.

Demetrius, his rival—Hubert Garriott.

Helena—Mary Tomlinson.

Dr. S. H. Zandt.

Following the Woodland Players came Dr. S. H. Zandt who discussed the church problem, why people don't attend church. The preacher's fault. Number one. The gentleman was introduced by an old time friend, Rev. Wm. Whorton and proceeded to deliver an excellent address. Only a few thoughts are offered; nothing at all in the way of a report of the effort.

In the eyes of many the minister is not at all worthy. Some call him the verminiform appendix of plutocracy. Some say he is muzzled and doesn't dare tell the truth. Some say he tells the privileged classes to be generous and the poor to be patient. Analyze the characters of those who so severely criticize the preacher and how poorly they stand in the eyes of honest people. Far too frequently people criticize the preacher at the table and the young hearing it imbibe injurious ideas. Some think a preacher should combine in himself the traits of a successful overseer of a great factory; of a manager of a big department store; of a successful financier; of a grand orator and how are you to get all those things in one man?

Mental indolence is often charged against a preacher but if that really be true of him it will soon out. One man says the sermons of the minister are an insult to intelligent people. Another says he gets nothing worth bringing home when he goes to church. How are the hearts of those

men? We go to church to worship God. Some ministers study too much and try to attain as much literary merit as possible forgetting the heart and spirit.

If we honestly stand by the preacher, encourage him with kind words and do our part toward making his life pleasant and his work successful we shall generally discover that we have not a great deal of fault to find with him.

Picnic Suppers.

In the evening a number of the medical fraternity had an enjoyable picnic supper when it was well demonstrated that the men who care for the physical welfare of others also know how to enjoy the good things of life.

Dr. Frank I. Lutz.

The lecture of Dr. Frank I. Lutz on the cancer problem was a fine effort. The gentleman displayed intimate knowledge of his subject and told how the dread disease may be averted and cured if taken in time. It may be a surprise to some to know that next to the white plague cancer carries off the greatest number of victims and anything that will lessen its power is acceptable.

Today is Jacksonville Day

Many business houses and stores will close this afternoon at 3 o'clock because of the celebration of "Jacksonville Day" at the chautauqua. They are closing to help to make Jacksonville Day the biggest day of this year's festival and to give the down town people a pleasant afternoon and evening's outing.

August is a vacation month, during which the stores in most cities close one afternoon of each week. Part of one afternoon during this year's ten days chautauqua will be appreciated by the clerks as well as their employers. No binding petitions were filed out but from the expression of opinion Secretary Fritchey said yesterday the majority of downtown stores will be closed.

Early announcement was made in the programs and in the papers and the general public understands that this afternoon will be a holiday. A varied and entertaining program has been arranged which will please everybody from the baseball fans to the gun club men.

Notes.

In the morning there was a game of base ball between the campers and a team from Joy Prairie and the score stood 10 to 6 in favor of the campers. The batteries were: Joy Prairie, Day and Lewis; for the campers, Farnley and Stewart.

Prizes for the baby show have been contributed by Mrs. Bird Strawn King, Coover & Shreve, Brady Bros., F. J. Waddell & Co., Carl Hillyer, Russell & Lyon and they are very nice and desirable.

Mothers bringing babies under a year old, bona fide exhibitors in the baby show, will be admitted free.

The refreshment tent of the Christian church is doing a good business and giving fine satisfaction. Though the wading pool was stopped before it was completed the little folks use it to some extent anyhow and show how nice it would be if only we had a good one in the park.

A crusty bachelor, when he heard that mothers bringing babies for exhibition in the baby show would be admitted free, remarked that the chautauqua managers were adding in disseminating preparation as free admission would tempt some to carry in their arms boys in knee pants.

Miss Genevieve O'Hara of the Woodland Players was the guest yesterday of Mr. and Mrs. Earl Wiswell. She was not in the afternoon performance and was able to enjoy the hospitality of her friends. She is a very attractive young person.

At first there seemed to be a lack of flags but now, old glory waves from many tents and other places and the national colors are much in evidence.

The shooting by Mr. Cadwallader immediately after the ball game today will be a very enjoyable event. There will also be an opportunity for those who never hit a target to try their

hands. Looks easy enough to see James Groves bring down a flyer.

LAPHAM AND STEPHEN A. DOUGLAS.

An old scrap—from the New York times, says:

"Mr. Lapham was a classmate at Canandaigua Academy of the late Stephen A. Douglas. The Academy was at that time one of the leading educational institutions in the state, and Young Lapham and Douglas were regarded in the faculty and their fellow students as the smartest scholars in the institution. In debate they were regarded as rivals, and always pitted against each other. Mr. Lapham occupied a seat at the head of the table in the boarding department and Douglas sat at his right hand. Mr. Lapham was compelled to leave the school for several weeks, and on his return, found Mr. Douglas occupying the seat at the head of the table. Mr. Lapham demanded his seat, and Mr. Douglas insisted upon his right to retain it. The faculty decided finally that the two men should argue the case before the scholars, who would sit as a jury. The contestants accepted the situation and made elaborate speeches. The jury decided that Douglas was entitled to the seat. Mr. Lapham in relating this anecdote used to say: 'This was Stephen A. Douglas' first idea of squatter sovereignty'."

Elbridge Gerry Lapham, after serving in congress from 1874 to 1881 was elected U. S. Senator from New York, serving until 1885. He died in Canandaigua, N. Y., Jan. 8, 1890.

LATEST NEWS FROM THE FIELD OF SPORTS

JOHNSON'S STRING OF VICTORIES BROKEN

BOSTON DEFEATS WASHINGTON IN ELEVEN INNINGS 1 TO 0.

After disposing of Boston batsmen in one, two, three order for ten innings, Johnson yields two hits in the eleventh, Red Sox scoring one run.

Boston, Aug. 28.—Walter Johnson's second attempt of the present season to set up a new pitchers record for successive victories failed today when Boston won an eleven inning contest from Washington 1 to 0. For ten innings Johnson had disposed of Boston batsmen in a procession that was monotonous except for the interest which his performance developed. Only in the second inning was the one, two, three order of Boston going out interrupted, this by Yerkes' hit over short, until the eleventh inning.

Then Yerkes slammed the second hit off Johnson into center field; Milan fumbled, Moeller got in the way of his recovery and Yerkes was safe on third. Wagner's infield hit resulted in Yerkes being put out on the way home, but not until Wagner had reached second. Manager Carrigan was at bat. Johnson had sped over three balls for a count of two strikes, one ball, when Carrigan met the fourth squarely for a clean hit between left and centerfielders and Wagner raced home and Walter Johnson's winning streak had been stopped.

Up to today the league's leading pitcher had twirled Washington to 14 victories without defeat beginning on June 27th. This stands as the American League record for this season but is two games short of the mark set last season by Johnson and Wood, the latter of Boston.

MANAGER HAS COLD FEET.

The game of baseball scheduled at Nichols park Thursday afternoon was called off by the manager of the city hall aggregation, much to the disappointment of three men and about a baker's dozen of urchins who braved the torrid sun and hiked the Alton tracks to the diamond enclosure. It also was a keen disappointment to the youngsters from the Journal, who were in hope of doubling the score made in last week's game. A valve in the city fire apparatus was in need of packing and as the job fell to the city hall manager, he called off hostilities. He has asked for another date.

OREGON SPEED BOAT SINKS ON REGATTA COURSE

Three Foot Sea on Lake Cooper Pounds Board Off Bow of Boat—Crew Saved by Small Boats.

Keokuk, Ia., Aug. 28.—The Van Bleark, owned by S. T. Black of Portland, Ore., sank on the north leg of the regatta course on Lake Cooper this afternoon. The crew was saved by small boats.

A three foot sea pounded a board off the bow of the boat slowly and A. L. Klingbeil and E. Crowley, both of Portland, perched on the bow until it disappeared. The sea proved too high for the small boats to run and at the finish of the race, which was cut from twenty to ten miles, Oregon Kid had a hole in the bow and Hydro Bullet was in no shape to run again. The judges then postponed the races until tomorrow morning, when the Webb trophy mile dash against time and the finish in all classes will be run, provided the lake calms.

Oregon Kid, owned by S. T. Black, won the heat and class E race. Time for the ten miles was 15:07 3-5.

won: General Constantine, second; Governor Wilson, third.
Knox county derby, 1-1-6 miles, \$160—Princess Brenard, won; Shott, second; Longwood, third.

SOME OFF-SIDE CHUTES

Big Jim Vaughn's first full game in a Cub uniform was what Sally Ann would call a rather pertentious one. He was pitted against Big Ed Reulbach, ex-Cub, at Brooklyn, and he not only outpitched the auto salesman, but in the seventh he lead the assault which drove Ed from the mound and shutout the Dodgers, while he and his mates counted three.

Comiskey's plan to have a commission of baseball writers, umpires and managers revise the playing rules is meeting with much favor among the lovers of the pastime. His idea is to have the commission meet at some centrally located city during the coming winter to discuss and thoroughly revise the rules, all the expenses to be met by the National commission. It is to be hoped the suggestions of the Old Roman will be put into action by the powers that be, and that a uniform method of scoring, at least, evolved; that the farical "Cincinnati hit" be cut out, and the equally obnoxious "fielder's choice" so amended as to make the so-called play at least intelligent to the average layman.

During the White Sox lay-off Senator Scott and Buck Weaver have been sent out as scouts by Salabian. They will tour the Three Eye circuit until Saturday in the hope of landing some hitting strength.

Charley Hemphill has been suspended for the balance of the season by Manager Friel of St. Paul for failure to keep in playing condition. Charley's banishment to the provinces evidently has not crabbied his penchant for buying sparkling wine and fast automobile rides.

Ad Wolgast has picked an easy one for some of the easy money lying around loose in California. On Monday next, if not stopped by the authorities, he will meet a rank third-rater, a half breed Mexican, Joe Azavedo, in Oakland, across the bay from San Francisco.

There is another "lol" in the Ritchie-Fredde Welch fiasco, scheduled for Labor Day at Vancouver. Jim Griffin, Ritchie's "Frisco referee, could not postpone a trip east to go to Canada's northwest next Monday, so the frame-up has "accommodatingly" been set back until Sept. 20.

The cricket match is on in full force at Comiskey park. As the "Chutes" column ambles to the press room the Australians had gathered something short of 1,000,000 runs at fall of the wicket and were about to adjourn for lunch.

The serious illness of his wife at Bloomington, this state, has caused Umpire McGreevy to hand his resignation to President Ban Johnson. Mac when on the playing field was a rigid disciplinarian. Capt. McBride of Washington and Manager Callahan had a little tee-tee with him on Saturday, for which both have been set on the ground until tomorrow.

Ed Walsh's arm is rounding into shape, so much so that Callahan has announced that the Big Moose will accompany the Sox upon the coming eastern invasion.

Garry Herrmann evidently has "taken his fingers out of Joe Tinker's pie." Wednesday at New York Joe drove in four of Cincinnati's five runs, winning from the tribe of McGraw, 5 to 1.

The lowly Cardinals gave Charley Doolin and four of his hurlers a good big taste of high life in the game at Philadelphia on Wednesday. Twenty-nine hits for fifteen runs were the result of the slaughtering of Brennan, Amey, Rixey and Hallsip.

The rejuvenated Fiene won his third straight game for Minneapolis Wednesday, when he allowed Milwaukee only five hits for one run.

A STRONG REFERENCE.
A young man recently applied for
a position with a large printing
house, and not having a letter of
reference, offered his bank book. It
showed a regularity of entries of de-

THE WORLD'S LATEST FINANCIAL AND MARKET NEWS

BUYING PRODUCES AN ACTIVE MARKET

PROGRESS UPWARD IS UNINTERRUPTED FROM MARKETS OPENING TO THE CLOSE.

Speculators Conclude That Country's Relations With Mexico Have Improved Sufficiently to Justify More Confident Position in the Market.

(By Associated Press)

New York, Aug. 28.—Wall street reached the conclusion today that this country's relations with Mexico had improved sufficiently to justify a more confident position in the stock market. With characteristic readiness to jump to conclusions, speculators bought stocks on a scale that produced a broad and active market.

Although it was realized that no definite developments had occurred, sentiment was decidedly bullish. Standard dividend-paying shares led in the advance, with the Harri- man stocks and the coppers conspicu- ous.

The coppers were helped by the strong technical position of the metal market. The price of standard war- rants in London has reached the highest figure of several months and some domestic producers were said to be holding out for 16 cents.

With such a bull market on their hands speculators were oblivious to unfavorable news.

Southern Pacific did not weaken with the appearance of its July statement, showing a decrease in net earnings of \$136,000. Reading was well in the front, despite rumors of a new government suit.

Reports from the southwest told of further damage in the cotton belt. Withdrawal of \$1,000,000 gold for shipment to Canada was announced.

The shipment follows a recent sharp decline in Canadian exchange on New York. The bank loss on sub- treasury operations has reached an unusually large figure so far this week and a poor bank statement is not unlikely. The bank of England made a particularly strong showing, the present proportion of reserves to liabilities given as 59.46, not having been equalled at this season for sev- enteen years.

PRACTICAL SCHOOL WORK IN A MICHIGAN TOWN.

Boys in the Ishpeming, Mich., high school repair the school buildings for pay, conduct a co-operative school farm for profit, and are about to erect a gymnasium for their school in the same business-like way they have learned to do other things for themselves and the community. All this work is under the direct supervision of the regular school authorities, according to H. W. Foght of the United States bureau of education.

For the past six years, Mr. Foght states, high school students from the manual training department have been employed to repair the various city school buildings. During one summer \$3,000 was thus paid for student labor. The boys have repaired roofs, laid cement floors, built brick walls, and installed plumbing fixtures. The gymnasium to be erected by the boys is from plans drawn by seniors in the high school.

Particularly successful has been the co-operative farm enterprise. Superintendent Scribner induced the board of education to rent a patch of ground on the edge of the city, and at the same time procure \$500 for development expenses. Sixty-four boys responded to a call for volunteers to form an association. They were immediately organized into three working squads, each with its own "boss." The boys made their own rules, and they carry them out. Strict discipline is enforced, and drones are discouraged. As a first step, six acres was planted to potatoes, cabbages, and strawberries. It is the plan ultimately to plant 20 acres in strawberries for the northern markets. The boys receive 10 cents an hour for their labor, and they are to have 17½ cents additional when the products are marketed.

These plans to meet the actual needs of the community through its schools developed out of peculiar local conditions. Ishpeming is a mining and industrial town of some 13,000 inhabitants in the upper Michigan Peninsula. Under the state law, children are not allowed to work in the mines and factories until they are 18 years of age. The compulsory age is 14. As there are almost no other industries in the region, there is more than the usual danger of "drifting" on the part of the growing boys. It was to meet the problem of these boys that the practical experiments were undertaken, and the boys become interested in school, but their parents have had brought to them in a thoroughly understandable way the direct economic value of education.

THE PROGRAM CHANGED.

Various Additions to the Offerings at the Chautauqua Today.

Several additions have been made to the list of good things to be enjoyed at the chautauqua today and that has necessitated a change in the hours of some of the attractions. Bob Seeds, th at prince of acrobats, ural speakers, has been added to the published list. Then Miss Catharine Moore, a Jacksonville young lady who has won distinction abroad with her violin, will be on the bill. There will be a baby show just south of the large tent from 2 p. m. on. There will be an exhibition of fancy rifle and pistol shooting immediately after the baseball game and following that will be target shooting with shotguns.

This is especially Jacksonville day and there should be a large attendance.

WRITES ABOUT CROP CONDITIONS IN KANSAS

T. C. Waters Says That the Dry Weather Has Cut Products Short.

T. C. Waters, a former resident of Jacksonville, but now of Wellington, Kansas, has written to J. W. Taylor of crop conditions there. The letter reads as follows:

"I read in the Journal reports of crop conditions in old Morgan, where I have some interest yet, also some statements relative to conditions out here in Bleeding Kansas. In justice to Kansas and especially to this part, Sumner county, I will say while he have had one of the driest seasons, the old settlers tell me in their recollection, also the hottest for 18 days, 100 to 110, however, we had some local rains, but the hot sun got in its work, after all. Corn that was planted early will make some corn. There is a strip across this county about three miles wide that had as fine a prospect for corn as I almost ever saw, but it will only make a very light crop. It will make a fine lot of feed, however, which has all been put into the silo in the shock, and the ground will be put to wheat; will take the 320 acres belonging to S. T. Erixon and myself for a sample.

"We had 100 acres of corn up to July 30; looked good for 75 bushels and got very little corn, but good feed. The heat just killed the tassel and the corn remained green. We had 60 acres of oats which made 15 bushels; grain of fair quality, and 75 acres of wheat which made 16 bushels. One cutting of our 18 acres of alfalfa made one ton per acre, but too short, but is still in good shape for next year. Some fields of wheat made up to 45 bushels; one farm adjoining yielded 38 bushels, another 32½. So you see all told, we are almost in as good shape to get through the winter as you people are on your high price land, although it is a mighty nice thing to be able to own. I wish you could come out and see the facts that I have tried to tell you. Yours truly, "T. C. Waters."

PAY HONOR TO MEMORY
OF DANIEL WEBSTER.Memorial House in Honor of Great
Orator Is Dedicated.

Franklin, N. H., Aug. 28.—Several thousand citizens of this state and other states attended the patriotic exercises held here today to celebrate the completion and dedication of the Webster Memorial House, which is really the restored birthplace of Daniel Webster. The exercises were held at the old Webster house and consisted mainly in the delivery of a number of historical and patriotic speeches by distinguished orators from this and other states, honoring memory of Daniel Webster and expressing satisfaction over the preservation and restoration of the great statesman's birthplace.

When Daniel Webster was born on January 18, 1782, the humble house in which he first saw the light of day, was in Salisbury, now a part of Franklin. When Franklin became a town, in 1828, it took parts of Salisbury, Northfield, Andover and Sanbornton into its territory. Tradition says that when Daniel Webster was born the clearing around his father's cabin was the furthest north in New Hampshire. There was only a bridle path to the place, and the house was located so as to face an old mill in the hollow. Trees that have stood for centuries are still there, but nothing remains of the old mill but the dam. When Daniel Webster was three years of age, his father, Capt. Ezekiel Webster, moved to what is known as the Elm Farm at Webster Place. This is now a part of the New Hampshire Orphans' home, the exterior and interior having been preserved intact. Abigail Chapter, D. A. R., has had installed in front of the house a boulder with a bronze marker. The birthplace and the Elms are the only two places now standing in Franklin in which Daniel Webster lived. The old Webster tavern, across the street from the Elms, which was once his home, has been removed, to give way to a more modern farm house.

After Webster's father had moved to the Elms, the old house which the family had formerly occupied, was moved across the road and attached to a big two-story farm house as an L. The cellar of the old house was filled in and the location was forgotten. In October, 1910, at a meeting in the office of Chief Justice Frank N. Parsons of the New Hampshire supreme court, in this city, the Webster Birthplace association was organized. The organization obtained an appropriation of \$1,500 from the legislature and this, with other, voluntary contributions, enabled the association to purchase the site of Webster's birthplace and restore the house nearly to its original appearance. The house was moved back and placed upon its original foundation, which was fortunately found. The old fireplace in the kitchen or living room, with its big iron crane, was rebuilt and the house itself restored to its original state inside and outside as much as possible. Even the old well in the yard was restored, together with its old fashioned sweep and oaken bucket. Funds will be collected to make it possible to install a caretaker and to keep the house in good condition.

DESCRIBES PROGRESS
OF NEGRO RACEFour Colored Citizens of This City
Hear Address of Booker Wash-
ington at Philadelphia.

The progress of the negro race during the last half century was the theme of the chairman, Booker T. Washington's address before the national convention of the Negro Business League held last week in Philadelphia and attended by four Jacksonville citizens. "We mean as a race to make ourselves such a useful and potent part of American citizenship that in all the future no one will dare question our right to be included in any declaration that relate to any portion of the body politic," said Mr. Washington, opening his remarks by referring to the old belief that the negro was not included within the scope of the Declaration of Independence. The delegates at the convention numbered 300 and were composed of business men, farmers and professional men from all parts of the union. The Jacksonville citizens in attendance were Dr. A. H. Kennelbrew, Frank and Edward Mallory and Thomas Allen.

In enumerating some of the evidences of negro progress, Mr. Washington spoke of the \$700,000,000 worth of property owned by men of the colored race, of the negro banks capitalized at \$1,600,000 and of the numerous prosperous organizations in various parts of the country supported by black men.

He especially urged that the colored man return to the land and seek prosperity agriculture.

The meet will conclude Saturday with the great race for the Elgin national trophy and a \$2,500 purse. NEWLANDS 65 YEARS OLD.
Washington, Aug. 28.—Senator Francis G. Newlands, one of the veterans of congress in point of service, attained his 65th birthday anniversary today. He is now in his tenth year as a member of the senate, to which body he was elected after a service on teen years in the house. When Nevada first sent him to the senate there was but one other Democrat from the west in the upper house. Senator Newlands has established a reputation as being one of the broadest minded men in public life and one of the most versatile. He has been identified with a wide variety of measures for the public good, ranging from the establishment of an art commission to supervise monuments and public buildings to the reclamation law which bears his name.

RUSSIA REMEMBERS TOLSTOI.
St. Petersburg, Aug. 28.—Notwithstanding the frowns of the government officials and the protests of the reactionary bureaucratic element, all Russians belonging to the educated and progressive class joined today in some form of observance of the 85th anniversary of the birth of Count Leo Tolstoi. In some localities the celebrations were reluctantly abandoned, but in nearly all the principal cities of the empire and at all the universities the programs were carried out with every evidence of enthusiasm and admiration for the memory of the great "Apostle of Liberty." During the week hundreds of pilgrims visited Tolstoi's old home and burial place in Tula.

PASSENGER AND FREIGHT TRAINS COLLIDED ON THE WABASH

Wreck Occurred at Naples Thursday Night—Both Engines Were Disabled and Traffic Delayed for Many Hours—Baggage and One Passenger Slightly Injured.

Train No. 12 on the Wabash due in this city at 9:45 o'clock Thursday night ran into a freight train at Naples at 8:40 o'clock. Both engines were disabled, the baggage man, John Haynes, and one passenger were slightly injured. The wreck and the train was not cleared until after 1 o'clock. The freight train had taken the siding, but had crept out on the main track several feet and the collision resulted. It was accounted almost miraculous that there was not a much greater property damage and some loss of life.

The passenger train was not running at high speed and was nearing Naples when the engineer saw the light from the freight engine on ahead. He applied the air and slowed down to some extent, but a collision was inevitable. The engine of the passenger train was damaged to such an extent that another engine had to be secured from Bluffs to pull the train. The freight engine also was badly damaged and was thrown across the track.

A leaky throttle on the freight engine is given as the cause of the accident. One theory given is that the engineer, after taking the siding was unable to bring his train to a full stop and the second theory is that the train moved very slowly and slipped out upon the main track a few feet without the knowledge of the engineer. A case of this kind happened on the Alton a few years ago near Ashland, when a freight train crept out on the main track while the trainmen slept.

It is accounted as remarkable that neither passenger or freight cars left the rails and that the only damage to property was to the two engines and the rails. Still more wonderful is the fact that the engineers and firemen were uninjured and all on the passenger train escaped save one passenger, who sustained some bruises and the baggage man, who was scratched about the face and neck.

No shirt sale has ever been given which equals the values shown by FRANK BYRNS' Hat Store.

As has been announced Mr. Phillips is to be one of the features in Jacksonville Day at the chautauqua this afternoon. Mr. Phillips has been a student of Oscar Seagle in Paris the past year and has been studying French under Mr. Phillips. Three months and half prior to coming home, Mr. Phillips went to London, where he studied further under Mr. Seagle and also was coach for oratorios under Allen Gill, who has been a tutor of Herbert Witherspoon and Clarence Whitehill. BURLINGTON PROPERTY PURCHASE RUMOR IS REVIVED

Railroad Said to Have Acquired Street Railway Barns on East State Street—Mr. Miser Says There Is Nothing to the Story.

After several months, in which time stories regarding the Burlington Railway company purchasing property on Illinois avenue for a double track through Jacksonville had been nearly forgotten, Thursday brought a rumor about a proposed transaction of even greater magnitude than all its predecessors.

According to the story in circulation yesterday the Burlington and the Jacksonville Railway & Light company were contemplating a deal whereby the Burlington was to become the owner of the property at the corner of East State street and Illinois avenue, on which the Street Railway company's car barns are located. It is said that the railroad has been anxious to acquire this property for use in double tracking their right of way through the city and as they now own the property between the barns and East North street, some color is given the story.

Another, and a new phase of the story, was that the Jacksonville Street Railway company had made arrangements for the purchase of the Brook Mills property on South Main street, providing their proposed deal with the Burlington company was consummated. This property, according to the story, would be used for a location for the car barns. It was said the officials of the Street Railway company consider this an excellent location for the car barns, as it would bring all of the property of the Jacksonville Railway & Light company in closer proximity.

When asked about the matter Thursday, W. B. Miser, general superintendent of the Jacksonville Railway & Light company, stated that while there had been some negotiation between his company and the Burlington, regarding the transferring of the property on which the barns are now located, it had fallen through. He said that the disagreement between city official and the Burlington caused the Burlington officials to abandon their trackage plans for Illinois avenue temporarily at least, and this put an end to Burlington and street railway negotiations. In regard to the rumor regarding the Street Railway company purchasing the Brook Mills property, Mr. Miser said that there was absolutely nothing to it and that if the company did wish to put a car barn near their other plants, they had property west of the Brook Mills and also at the corner of Anna and South Sandy streets, which would serve for a location for the barns.

FARWELL & RHINES'

Gluten Flour

Permit a few words of explanation and precaution for our mutual advantage.

The pure food laws of the United States and of individual states demand that flour called "Gluten Flour" for the use of diabetics, and others, shall contain at least 5.6 per cent of nitrogen, this factor multiplied by the factor 6.25 (in use by Analysis) shows the amount of protein or gluten required, to be 35 per cent. Both the physician and his diabetic patient have a right to expect and insist that such a product be furnished. Substitution, carelessness or deception in this matter are dangerous.

Our "Gluten Flour" of superior stock, granulation and manufacture, is made especially for such cases, and contains about 40 per cent of gluten or protein. It is not excelled, if equalled in America or Europe, as diet in marked cases of diabetes mellitus, obesity, rheumatism and other ills arising from excess of uric acid.
